

## **Agenda for NWAESC Monday October 6, 2008**

8:00 – 10:00 AM      Opening Session  
    Introductions  
    Connecting Technology and Curriculum  
        Theoretical Foundations for Using Technology  
        Why is it important to integrate technology?  
        Examining the NETS-S Standards  
        What it looks like to integrate technology  
        How do you integrate technology in the classroom?  
            For Teachers  
            For Students

10:00 – 11:30 AM      Hands On Session  
Note: Each hands on session will feature a short demonstration followed by time for individual participants to work on technology projects. We will circulate among participants and provide individualized instruction and ideas.  
    Creating and Working with Wikis  
        This session will give participants a chance to create their own wikispace. The wiki will serve as the hosting place for all of our work during this session.

11:30 – 12:30 PM      Lunch

12:30 – 1:30 PM      Using Technology in the Classroom  
    Tools for Creating Student Projects and Interactions  
        Student Response Systems  
        Using Office in non-traditional ways  
        Inspiration  
        Using Interactive Whiteboards

1:30 – 3:30 PM Hands On Session 2  
    Using Audacity to make a Podcast  
        This session will give participants a chance to install Audacity as well as the LAMElib plugin. Participants will record MP3 files and listen to them in iTunes.

3:30 – ??? PM    Q & A  
    Participants can ask questions or we will initiate the discussion with some of our own questions.

## **Tuesday October 7, 2008**

8:00 – 9:30 AM      Digital Storytelling  
    Learn how to make digital stories in the classroom. This session will include storyboarding and how to make use of MovieMaker. We will also remote in with Jared to describe how to use movies in the curriculum.

9:30 – 11:30 AM      Hands On Session 3  
    Making Movies  
        Participants will use MovieMaker and other software to make digital stories.

11:30 – 12:30 PM      Lunch

12:30 – 1:30 PM      Advanced Video Editing Techniques

1:30 – 3:30 PM      Hands On Session 4  
    Making Movies  
        Participants will continue to make movies using MovieMaker and other software.

**Wednesday, October 8, 2008**
